## Inspired by Africa

Porcupine's stunning 'Raku' fired ceramic art pieces are inspired by the cultural heritage and wildlife of Africa. These original and highly collectable ceramic art pieces; which includes animals and fish as well as pots, candle holders and washbasins; are created by an additional post firing phase that produces the unique crackled glazed effect.

These inspirational and individual art pieces are hand crafted by a collective of local artisans who are trained and mentored by the founders of the business. Perfect as a gift or a collectable range these colourful ceramics are unique, tactile and creative.
